PROFESSIONAL SUMMARY

Motivated and Creative Computer Science undergraduate with a strong foundation in Data Structures & Algorithms and web development. Proficient in HTML, CSS, JavaScript, and Python, with hands-on experience in building responsive, user-centric web applications. Currently learning React to enhance front-end development skills. Committed to continuous learning, clean code practices, and effective collaboration in team environments.

EDUCATION

Bachelor of Technology (AI ML) Newton School of Technology, Pune	2024 - 2028 Grade: 8.73/10.0
Intermediate (Class XII) S D Sen Sec School, Narwana	2021 - 2022 Grade: 80.2%
Matriculation (Class X) S D Sen Sec School, Narwana	2019 - 2020 Grade: 94.8%

PROJECTS

Flow Sync , (Github) (Demo) FlowSync is a menstrual health tracking web app built with React.js , Firebase , and the Google Drive API . It allows users to log their cycles, track ovulation, and journal health insights. All data is securely stored in the user's own Google Drive. The project is responsive, mobile-friendly, and deployed on Vercel .	April 2025
Science Verified , (Github) (Demo) Science Verified – A myth-busting platform built with HTML and CSS, dedicated to debunking popular science misconceptions with evidence-based explanations. Features a clean, user-friendly design for easy exploration of topics in space, health, technology, and everyday science, promoting critical thinking and scientific awareness.	December 2024
Portfolio Website , (Github) (Demo) Explore my creative journey through a curated collection of my work, showcasing my skills and passions. This portfolio reflects my dedication to Art and Technology, Web Development, and Coding , highlighting projects that demonstrate my ability to blend innovation with functionality.	August 2024
